- Hydraulic piping

Parker in Finland

Parker Corporation subsidiary Parker Hannifin Oy has operated in Finland for over 40 years and has achieved a solidified market position in the field of hydraulics. Parker offers its clients a wide variety of hydraulic-, pneumatic-, and automation-industry products and know-how with value-added services.

Parker has a wide network of retailers in Finland, with 25 ParkerStores and retailers in over 30 localities all in all. With this network the client can find the products in stock from a local supplier.

Reference

"The service in Rauman Akku is worth of praise. Things couldn't run any smoother. Supply deliveries are handled twice a day and we are expanding our cooperation to a shelf carrier-service. This way the staff in Rauman Akku will deliver supplies directly to our workstations."
Rolls-Royce, Rauma.

Production

Hydraulics department

We design and manufacture hydraulic systems as ordered.

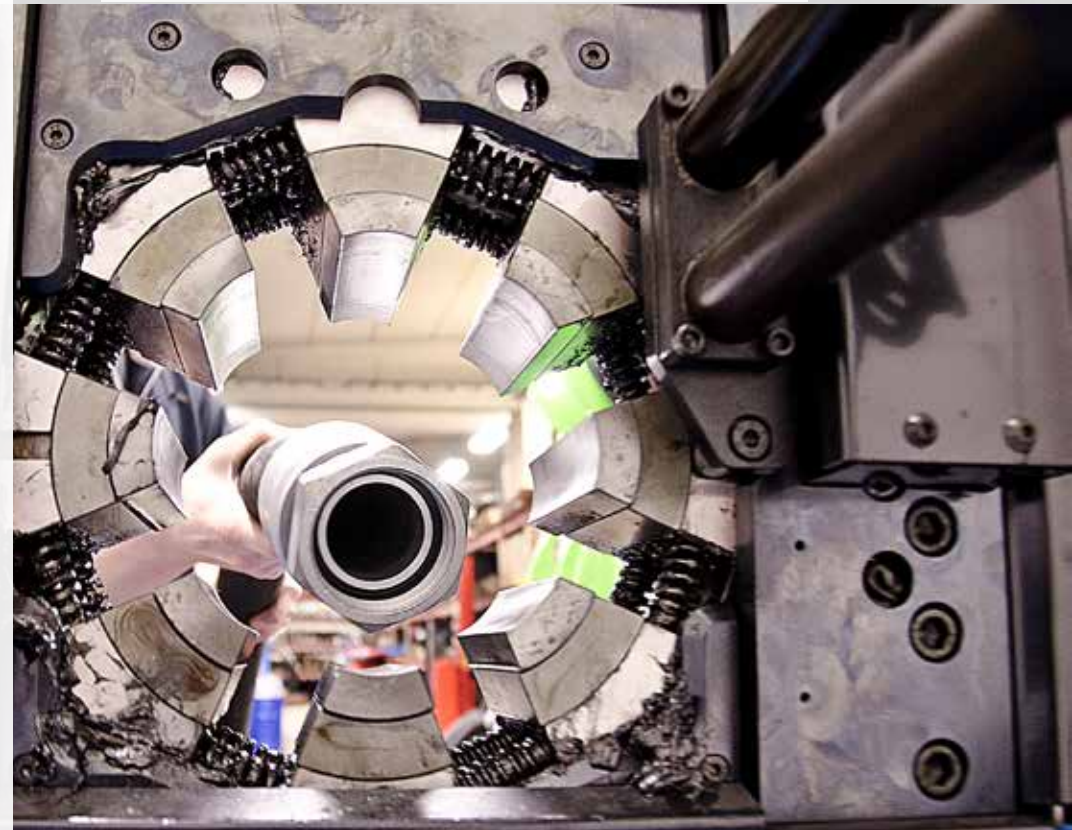

Most common tube-assemblies can be produced while the customer waits. Our professionalism ensures high-quality fitting. We provide fast and expert service from single tubes to larger sets.

Battery department

We provide our customers with expert service with batteries with years of experience.

- We cell batteries for use in industry, forklifts, cleaning machines etc.

We procure specialty items for our business clients. e.g.:

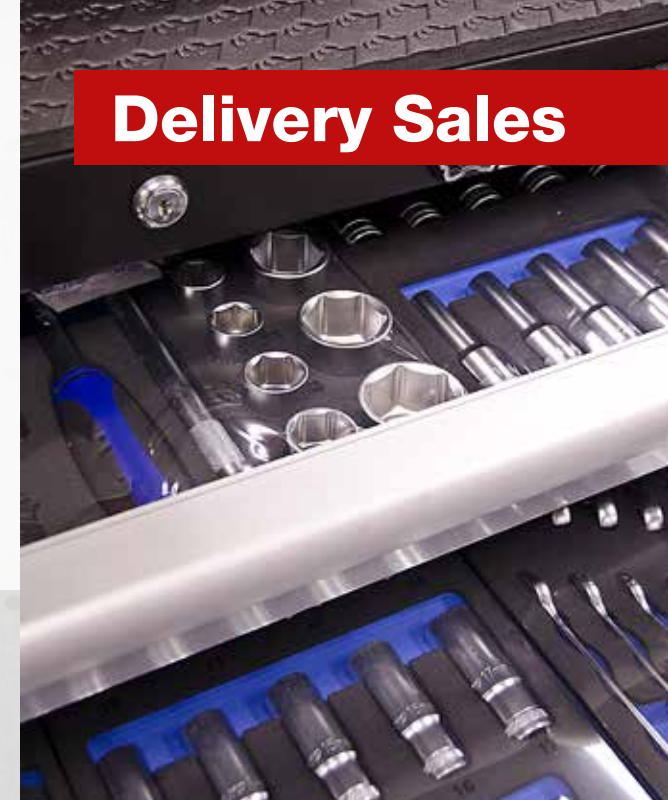

- offer-specific assignments
- inventory tools and equipment for ships etc.
- tools and machinery for workshops
- Trade-specific toolkits
- we provide specialized tubing/piping to requirement

Let us solve your problem together!

Specialty profession requires trade-specific tools. We provide customized toolkits for all these needs.

Delivery Sales

Shelving service

We deliver materials, supplies and spare parts under contract to our clients following the conditions of each contract. Directly to work posts and stations efficiently and without fail.

Shelving services are tailored to suit your needs, to help your staff save time and effort with routine procurements of materials and supplies.

Material orders, deliveries, shelving and restocking will be handled for you.

Our field-representative is at your service according to arrangement.

Contact Tapio: 040 591 2080

Client reference:

"We've used the shelving service from Rauman Akku for several years. Currently Tapio visits us twice a week. The service has been flexible and excellent. We have always received the supplies we've wanted."

Paavo Pitkänen
Technology Director
Vahterus Oy
